

BECAUSE YOU MAKE A DIFFERENCE

Be a part of something

Big!

Help Your Employees get all the money they are due !

Your employees and clients may not know about the Earned Income Credit (EITC) or the Child Tax Credit (CTC), or realize they might be eligible when they become employed. The EIC can be a major wage supplement for these workers and can promote some successful transition to work. The CTC can boost wages even higher for such families. Also, some workers not eligible for the EIC can qualify for the CTC. Since most EIC/CTC benefits are spent locally, the credits are considered important economic development tools for your community.

During the 2007 Tax Filing Season the FES Vita Program provided services to 1,300 individuals and families in Stark County with FREE tax preparation. More of our low-to moderate income families could be reached by increasing awareness to those employees whose income is 42,000 or below.

Why Vita?

- The nation's largest volunteer program
- FREE tax return filing to low-to-moderate income individuals
- Vital tax credits and refunds to eligible individuals
- Substantial economic benefits on the local community
- Increased standard of living (for low-to-moderate income individuals)

Ways You can help employees:

- Encourage employees to utilize the FREE VITA services
- Insert envelope stuffers with employees pay checks/W2's
- VITA awareness presentations at staff meetings/trainings
- Put up VITA posters on employee bulletin boards
